

VibraSound®

Sensory Resonance Vehicle

STATE OF THE ART VIBROTACTILE PLATFORMS AND SOUND TABLES

Music is meant to be seen and felt, as well as heard.. VibraSound® is a proprietary technology that allows the user to feel music in every cell of their body. The hydrosonic fluid utilized in VibraSound produces pure **vibrations** throughout every cell of the body from the inside/out, whereas the solid surface vibrators used on other sound chairs and tables are **oscillators** that simply vibrate the entire body as one...extremely important for individual frequency therapy.

“Sound Tables” produce the full spectrum of sound. However, since the main parts of the body cannot feel more than about 200 Hz. (1000 in fingertips), using more than that just puts more strain on the transducers and causes the platform to be much louder requiring sound proofing. VibraSound® is a “Vibrotactile Table” which converts the majority of the sound into physical vibration so it’s quiet enough to use in a doctors office on a solid floor.

Transferring vibration from one material into another causes an impedance difference and some of the signal is lost. VibraSound® is powered by a Zero Impedance Loss Processor that causes the colloidal fluid inside the mattress to match the sound characteristics of human body fluid so that the signal appears to be generating from within the body rather than like it’s coming from something being laid on...for the most powerful vibrotactile experience possible.

Cymatics is the study of sound and vibration made visible, typically on the surface of a plate, diaphragm or membrane. Tactility is the experience of feeling a cymatic wave on a surface or membrane. VibraSound® is the ultimate **Tactile Cymatic Device** because it allows users to feel waves instead of just seeing them

Together with its control system, the Sensorium LSV II, it's a **Sensory Resonance Vehicle**...a multi-sensory, multimedia experience platform that allows one to simultaneously see, hear and feel any type of auditory signal like frequencies, sounds, voices and music...an innerspace vehicle that allows drivers to turn the focus of attention inward...to the other side of reality where everything originates...the quantum world of ratio and pattern...and travel to Paradise by tuning in rather than tuning out...contemplation instead of meditation...Innerspace rather than outer space.¹

It's a **Superconscious Link Module** that links a person's subconscious and conscious minds to level to the 3rd and highest level of cosmic mind called the super-conscious.

LEVEL OF MIND	EMOTIONAL CORRELATIONS
Super Conscious Mind	Love - Peace - Joy - Inspiration - Generosity - Ecstasy - Connectedness - Faith - Health
Conscious Mind	Intuition - Understanding - Courage - Knowledge - Council - Worship - Wisdom
Sub Conscious Mind	Hate - Anger - Sadness - Depression - Greed - Need - Disconnection - Anger - Disease

It's a **Peak Experience** promoter that leads to better physical, mental, emotional and spiritual health...which dramatically improves production. The ability to relax means nothing without the

¹ If you have the vehicle, plan, map, and fuel to go to somewhere else in outer space, you are still on the outside level of reality. Paradise is not out there somewhere but at the Center inside.

simultaneous reality of being inspired.² Simultaneous profound relaxation with inspirational. AHA! Moments and sudden Epiphanies can change lives.

VibraSound® is an **Autonomic Nervous System Regulator** that assists in the balance of the parasympathetic and sympathetic nervous system....the expansion of homeostasis to both ends of the universal vibrational spectrum of frequencies...to the levels of self-realization and self-mastery. Transmutes threat into challenge.

It's a superior form of **Healthy Pleasure** as opposed to unhealthy forms of sordid pleasure, which solves the problem of the Pleasure Freeze and An-Hedonism, the first stage of all disease.

- Relaxation with Inspiration
- Safety with Security
- Creative Inspiration
- Catharsis and Cathesis
- Heat and Massage
- Increased Circulation
- Guided Imagery and Visualization
- Superior Way of Experiencing Music

² Sensory Resonance by Don Estes, InnerSense Inc. Harmonic Law Publications 1988

This must have technology can take anyone or any practice to a higher level of order:

- Music Artists, Composers, Producers and Therapists
- Chiropractors, Acupuncturists, Alternative Therapists
- Hypnotherapists, Psychologists and Psychiatrists (Non-Traumatic Access)
- Attorneys and Legal Firms for Arbitration
- Doctors and Dentists - Disarms Fear and provides Patient Distraction
- Entertainment Facilities
- Recreation and Relaxation Rooms for Home or Office
- Sensory Environments (AA - Handicap)

There are five embodiments of the VibraSound Techknowledgey:

WAVETABLE

ZERO-G RECLINER

TRANSPORTABLE MASSAGE TABLE

VIBRASOUND DOLPHIN

SUBPAD

HAND & FOOT TRANSDUCERS
